

# Open Scientific Meeting of the European Pollen Database

8-12 May 2007

Europôle Méditerranéen de l'Arbois, Aix-en-Provence, France

The meeting comprises invited talks, poster sessions, open discussions and a field excursion. We offer 5 different training workshops designed to help palynologists develop and strengthen their skills when working with multiple sites and data held in the European Pollen Database (EPD). The aim is to get more European palynologists involved with the EPD. The EPD will be updated and redesigned based upon discussions from this meeting. We encourage palynologists at an early stage of their career to attend and take part in this process. Financial support for attendance is available for young scientists.
