Editorial
3 Present and past mineral dust variations – a cross-disciplinary challenge for research
Ute Merkel, D.-D. Rousseau, J.-B. W. Stuut and G. Winckler

Science Highlights: Annual Recorders of the Past
6 Mineral dust: Meteorological controls and climate impacts
Kerstin Schepanski, U. Merkel and I. Tegen
8 Dust deposition rates derived from optical satellite observations
Luca Lelli, W. von Hoyningen-Huene, M. Vountas, M. Jäger and J.P. Burrows
10 Including dust dynamics in paleoclimate modeling
Yaping Shao
12 Characterizing the temporal and spatial variability of African dust over the Atlantic
Joseph M. Prospero
14 The significance of particle size of long-range transported mineral dust
Jan-Berend W. Stuut and Maarten A. Prins
16 A 10,000 km dust highway between the Taklamakan Desert and Greenland
Aloys J-M Bory
18 The enigma of dust provenance: where else does Antarctic dust come from?
Paul Vallelonga
20 Evidence that local dust sources supply low-elevation Antarctic regions
Bess G. Koffman and Karl J. Kreutz
22 South American dust signature in geological archives of the Southern Hemisphere
Stefania Gili and Diego M. Gaiero
24 Fingerprinting aeolian dust in marine sediment: examples from Australia
Patrick De Deckker
26 Iron fertilization in the glacial ocean
Alfredo Martinez-Garcia and Gisela Winckler
28 Loess as a Quaternary paleoenvironmental indicator
Daniel R. Muhs, M.A. Prins and B. Mchaalett
30 Abrupt climate changes recorded in loess sequences
Denis-Didier Rousseau and Adriana Sima
32 Extracting paleodust information from peat geochemistry
François De Vleeschouwer, M. Ferrat, H. McGowan, H. Vanneste and D. Weiss

Program News
5 DICE: Dust impacts on Climate and Environment
